VOLUME CVI.---NO 170. ALEXANDRIA, VA., THURSDAY EVENING, JULY 20, 1905. PRICE 2 CENTS.

No joy or pleasure on this earth quite equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the fragile, delicate mite that is blood of their blood

and flesh of their flesh? And who can depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother? Barrenness proceeds from some derangement of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Favorite Prescription overcomes barrenness by stamping out diseases of women, and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful, it makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Favorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Blacker, of 629 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' I have much better health, and now I have a fine healthy baby."

For 21 one-cent stamps to cover cost of mailing *only*, you can get a free copy of that celebrated doctor book, the Common Sense Medical Adviser, 1008 pages, illustrated. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

Digests What You Eat

Dollar bottle holds 2½ times as much as the trial, or 50 cent size.

Judge Mann's Denial.

Judge William H. Mann, candidate for governor, is out in a lengthy card, denying emphatically the charge that he was fraudulently elected to the State Senate in 1899.

On that occasion Judge Mann was opposed by E. P. Buford, who was credited with only 18 votes in Nottoway county, and Buford filed notice of contest. On the night of the election the clerk's office was broken into and the duplicate returns and pollbooks were stolen. The original returns had already been sent to Richmond. At that time it was thought that the books had been stolen in order to forestall an investigation, which might have made public the method which had prevailed in some black counties, where elections at times were little more than a farce.

In this letter the judge recapitulates the events in question and says:

"The original returns of the election commissioners had been sent to Richmond, so that, for the purpose of investigation, every fact could have been established as well after as before the pollbooks were taken. Certainly nothing in my favor was accomplished by the taking of the pollbooks. Fortunately for me, the original returns of the commissioners were in Richmond, otherwise taking of the papers would have been very much against my interest, as I would have had to establish my seat by legal proceedings."

After stating that he had then offered to resign at once if it could be shown by any reliable evidence, in a contest or otherwise, that there was any fraud in his favor in the election or that the papers had been taken by anyone friendly to him, Judge Mann says:

"I wish to state, with all the emphasis possible, that I did not know them and do not know who took those papers from the clerk's office, and I have not the most remote knowledge of why they were taken."

A Horrible Crime.

Details of one of the most horrible crimes ever committed in West Virginia are being brought to light in the Circuit Court of Calhoun county at Grantsville.

On the night of May 3 Henry Blackshire, a prominent farmer and miller of Brooksville, was murdered by masked men in the presence of his wife and son. Yesterday Lewis Henricks and "Bub" McCoskey, neighbors of the Backshires, confessed that they killed him, pleaded guilty to the charge of first degree murder and were sentenced to life imprisonment.

Along with their confession they charge that Mrs. Blackshire hired them to kill her husband, promising to pay them for their crime with the life insurance she expected to get after her husband's death. On their testimony the grand jury returned an indictment against Mrs. Blackshire yesterday, charging first-degree murder. Henricks and McCoskey say Mrs. Blackshire concocted several plots to be rid of her husband. First they were to kill him with his own revolver and make it appear to be suicide, but they found the insurance policy would be void in the event of suicide, so that was abandoned. They refused till she became insistent, they alleged, and then they filled up on whisky and committed the crime, while she actually held the light, they testified, so they could see to kill him.

Several times prior to the murder, they allege, Mrs. Blackshire left a window open so they could shoot her husband as he sat playing dominoes with his children, but they had not the heart to do so.

Keeping Strike Alive.

Evidence suggesting that extraordinary efforts were being made by the union mineworkers to prevent the sending of men from New York to the southern bituminous coal mines, where strikes are prevailing, was brought out yesterday at hearings held by Commissioner of Licenses Keating. The investigation was upon charges brought against two employment agencies in New York which have been engaging men to take the places of strikers.

One witness testified that he had been informed by a representative of the Mineworkers' Union, of which John Mitchell is president, that $1,500,000 had been spent to keep alive the strike in the mines of the Tennessee Coal and Iron Company in Alabama and Tennessee. Hugh Dewitt, general labor agent of the company, told Commissioner Keating that the union pays $1,000 a day to support the men who are out on strike, and that from its own books it appears that $26,000 was spent in buying return railroad tickets for men who were sent South by the immigration societies and employment agencies.

A large number of men are being sent from northern points every day to take the places of strikers and many of these are induced by union pickets, when they reach Birmingham and other southern cities, to return to their homes without going near the mines. In every case the union buys railroad tickets back to the point of departure.

Tragedy of a Mother Robin.

Zealously guarding for weeks her nest from the attacks of cats, a mother robin, whose devotion to her young has been watched with interest by neighbors of Charles Basler, at Pottstown, Pa., was herself the cause of the tragic death of her two little songsters yesterday. High up in a tree in the Basler yard "Mrs." Robin had her nest, but the cats discovered it long ago and perched themselves in a near-by limb to swoop down on the nest as soon as the little birds were hatched. The mother bird, with a great chatter summoned her mate to her aid, and managed to keep the mousers off, and when matters became serious the Baslers and their neighbors put the hose on the cats and drove them from the tree. Ten days ago two little heads peeped from the eggs and the anxiety of the mother became so intense for fear that the cats would devour them that she injudiciously began teaching them to fly before their wings were ready to carry them. One took a plunge to the ground and broke its neck and the second met a similar fate.

Six Feet of Snow at Yellowstone Park.

The edge of winter is just being broken at Yellowstone Park and by August 15 the snow probably will be off the ground. At Grand Canyon, in the heart of the National Reservation, the snow lies 3 feet deep, and in spots it has drifted to a height of 6 feet. The snow is piled high against the window of the office of the weather forecaster in the Grand Canyon Hotel, and the forecaster, R. C. Patterson, a Pittsburg man, who is spending his first summer at Yellowstone Park, is considerably confused in his dates. The temperature hovers around the 30° mark, with a mean of 35°. The snowfall lately has started in the evening and continued for a couple of hours. Then it would let up four or five hours and continue to fall until early morning. The deer, elk and bears that delight in cold weather have already left the lower section of the park, where warm weather is beginning, and are arriving at Grand Canyon in large numbers.

A Grim Tragedy

is daily enacted, in thousands of homes, as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Cold which cured her, and to-day she is well and strong." It kills the germs of all diseases. One dose relieves. Guranteed at 50c and $1.00 by E. S. Leadbeater & Sons, druggist. Try them today.

The Only Way to Cure.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, JULY 20, 1905.

CONGRESSMAN HAY, of the seventh district, has made a reply to the letter of Congressman William A. Jones attacking Senator Martin's record. "That letter," says Mr. Hay, "displays a lack of accurate information about the happenings in Congress under his own eye and an ignorance of the organization and names of the committees of the Senate that are simply amazing. Among other things Mr. Hay says:

The aspirant for the seat which Senator Martin now occupies says that it is very well to have a working man in the Senate, but that something more is demanded of a Senator from Virginia; that we should have Senators who would renew the era of eloquence when such men as Hunter and Rives represented the old Commonwealth in that august chamber. Mr. Jones is supporting the candidacy of this aspirant. Senator Martin's predecessor in the Senate was that taciturn but industrious, that silent but sagacious man, John S. Barbour. In the course of a commemorative address upon the occasion of his death Mr. Jones used these words: "In these days of materialism and practical politics, when governmental and not sentimental questions occupy the attention of statesmen, even the most casual observer cannot have failed to note that the practical man is the man who best serves his country."

Mr. Hay's observations need no comment. Virginia now has a practical, energetic working man in the Senate—the successor of the silent and sagacious John S. Barbour and who is not touring the State with his sails set for every wind. He is resting upon his record of usefulness, not on speeches at country fairs.

THE campaign against Secretary Wilson has been resumed with increased vigor, and even his friends are beginning to fear the continued criticism may eventually have the effect of forcing him from the Cabinet. The disclosure of the census office record of John Hyde, who has just retired as head of the bureau of statistics, owing to the cotton "leak" scandal, has undoubtedly done the Secretary much harm. At least one more resignation from the bureau of statistics is expected before long. It is that of a person whose name has figured largely in the cotton-report leak gossip. One of the charges now made against the veteran Secretary, who is both in years and service the nestor of the administration, is that he is a better scientist than disciplinarian. It is alleged in particular that he has failed to systematize the organization and management of the big establishment over which he presides. This weakness is held responsible for the regularities that have lately developed there.

MAJOR ALEXANDER MCDOWELL, of Sharon, clerk of the lower house of Congress, and a lifelong machine republican, while in Pittsburg, Pa., yesterday spoke of the trouble in the eastern part of the State as follows:

The leaders of the republican party of Pennsylvania will have to get back to the old-fashioned honesty if they want to keep control of the State. Grafters and stealing in the State, nation, counties and cities must stop. And the sooner the office holders get to thinking that office is a public trust and that the people must be consulted, the better it will be.

Now the first thing Maj. McDowell knows he will lose his place, for republican politicians will not stand being upbraided by office holders in their own party. Then what would the republican party be without graft, anyway?

COMPLAINT is made in various sections of this city of the unsanitary condition of the streets and alleys. Refuse from houses is thrown into the streets, while the grass and weeds, under the influence of the sun and heavy rains, are growing most luxuriantly and should be cut down. This state of affairs is not confined to the streets and alleys on the suburbs but extends throughout the city. This should not be and this is no time of year to take chances of the health of the city not being affected. If those who have such matters in charge cannot attend to street improvements, sewer laying and street cleaning at the same time, then street cleaning should have the preference and all efforts should be made to put the city in a sanitary condition.

WASHINGTON dispatches show that grafting is pretty general throughout the government printing office. Supplies are bought of persons who favor employes, machinery is bought on which employes get "rake-offs" and machinery and material in good condition are sold at nominal prices under certain condemnation orders and bought by favored buyers. Well, the country had a chance last year to turn the rascals out and it threw the opportunity away. Its folly will cost it a pretty penny, but many beside the pessimists believe that the country does not want an honest government.

One additional case of yellow fever, that of Joseph A. Corrigan, an American employee at Panama, was reported to the Canal Commission from the Isthmus today.

United States Commercial Agent Harris, at Eibenstock, Germany, writes that Japanese ability bids fair to give foreign trade a race not only for the home market in Japan but for the world market as well. Japanese manufacturers are now producing cotton yarns and flannels that are putting the British goods out of the Japanese field, while they are showing an aptitude for making the cheapest kind of cotton underwear, socks, toilet soap, lamps, indigo and other important lines. The Germans and English particularly feel the effect of this activity by the Japanese in the oriental field.

Bees' New Field of Operation.

The invasion of bees, first invited to the business section of New Brunswick, N. J., by half-burned and melting confectionery in the store of M. Constantinos, has become a really serious matter. The bees swarm in thousands over the soda water syrups and candies and have extended their field of operation to fruit displayed in all the stores within a block, and several persons have been stung. Constantinos tried to enter his burned place two days ago and received a sting that blinded one eye temporarily. Members of the fire patrol, who were guarding the ruins for the insurance adjusters, also received several painful stings. It is great fun for the people in stores to watch the antics of men and women who come upon the bees unaware. A small puddle of mud in the street has been greatly in demand for poultices.

Today's Telegraphic News

The Case of Justice Hooker.

Albany, N. Y., July 20.—With the joint session of the legislature dissolved the evidence in the prosecution and defense of Justice Warren B. Hooker and the concluding argument of counsel both for and against the accused jurist completed, the assembly met in separate session a few minutes before 10 o'clock this morning to vote today on the question as to whether or not Justice Hooker should be removed from office on the charges on which he has been tried for the past ten days. The formal resolution for removal which the assembly is to vote upon, is as follows:

"Resolved, Senate concurring, that Warren B. Hooker be and he is hereby removed from the office of Justice of the Supreme Court for the cause following, viz: That the said Warren B. Hooker, while a representative in Congress prior to the 10th day of November, 1898, and while the Justice of the Supreme Court of the State of New York, since the 10th day of November, 1898, had been wilfully guilty of corrupt, unlawful, and immoral acts, which have tended to bring and have brought the said office of Justice of the Supreme Court and the administration of justice into contempt and which show a personal unfitness on the part of said Warren B. Hooker to hold and occupy the office of Justice of the Supreme Court.

Albany, N. Y., July 20.—The assembly failed to secure enough votes to sustain the removal resolution, and the charges against Justice Hooker are not held by the lower house.

The official vote on the resolution in the assembly was: Ayes, 76, nays, 67.

As it required a two-thirds vote of the entire membership, or 100 votes, the resolution was defeated.

Royal Arcanum Affairs.

Boston, July 20.—At its first special meeting in the history of its existence of 28 years, the Grand Lodge of Massachusetts Royal Arcanum, which assembles today, in Chipman Hall, Tremont Temple, will consider the recent change of rates, which has aroused great opposition all over the country, and has resulted in the forming of a committee of 15, who have investigated the matter, independently of the Supreme Council. After the resolutions of the committee protesting against the new rates to the Supreme Council have been adopted, the representatives to that body will be instructed to vote for the calling of an extra session to reconsider the question of rates, eventually to adopt a plan of modification devised by the committee of 15. Then other States will be negotiated with in the effort to unite, for it is necessary, according to the rules of the order, that a majority of the supreme representatives of seven States favor the calling of a special session. When this is done the supreme representatives will sign a call for the meeting.

Scare in Banker's Office.

New York, July 20.—There was a scare in the office of Wasermen Bros, bankers, of No. 42 Broadway, this morning. In the mail received by Edward Waserman, a member of the firm, was a package which had the appearance of an infernal machine. The police were hurriedly summoned, and took the package away for examination. Mr. Waserman has no enemies that he knows of, and believes the box was sent by some one who thought he was perpetrating a good joke. In the box, which was a large wooden one, used for cigars, was found a quantity of loose black powder, and in the midst of the powder was a small oblong black box at one end of which was inserted a half dozen matches, fastened together in a covering of paste board. The box was decorated with various pastings, which included the name of Thomas W. Lawson, and an American flag.

Wife Murderer Indicted.

Boston, July 20.—John Schidlofski, charged with the murder of his wife, whose horribly mutilated body was found a week ago on the grounds of the Arlington Golf Club, in Belmont, was today indicted for murder in the first degree by the Middlesex grand jury. The indictment recites the fact that the dead woman, Mrs. Marian Schidlofski, came to her death by blows and stab wounds inflicted upon her by her husband, at Belmont, on July 14. After the finding of the indictment the work of preparing the final papers for the extradition of the prisoner was begun, and it is probable that State Officer Fred S. Rhoades will start for La Junta, Colorado, this evening, armed with a requisition on the Governor of Colorado to surrender the prisoner to the custody of the State of Massachusetts.

The Teamsters' Strike.

Chicago, July 20.— After a stormy meeting in which fist fights were numerous, the teamsters' joint council early this morning, called for another referendum vote from the rank and file of the drivers and recommended that the teamsters' strike be called off. The vote was ordered for today. "Spread the strike or we will tear up our charter," was the ultimation of the department store teamsters at their meeting last night. "A spread of the strike means a thorough licking," was the reply of President Shea. "The strike cannot go any further. If we quit now, we still have our organization left. If we go further we bring disaster. It is better than the men go back to work with their buttons than we force the fight."

Strengthening Port Arthur.

St. Petersburg, July 20.—A number of Russian civilians who have returned from Port Arthur say that the Japanese, since their occupation of the place, have constructed an elaborate series of new fortifications, and have mounted many heavy guns for the protection of the fortresses. The defenses have been strengthened at every vulnerable point, and the place has been made impregnable to attack. The Japanese have restored the house which was occupied by Major General Kindrakento during the siege of Port Arthur, and have erected a tablet there to the memory of the Russian who lost his life in the defense of the fortress. Inscribed on the tablet are the words: "The Russian hero, General Kindrakento, lived here."

The Hot Wave.

New York, July 20.—According to the weather sharps, the backbone of the heat wave has been broken, and there is every indication that the days of killing heat are past for the present. Official reports show that since the torrid weather began, the deaths of 185 persons are directly attributable to the heat. Yesterday 77 persons succumbed in this city, and the number of prostrations is placed at over 400. The temperature last night and today, was lower by several degrees than yesterday, and there was some breeze which made life bearable. Physicians expect there will be many deaths today as the result of the heat of the past week, especially yesterday when the vitality of thousands was reduced to a point where little or no exertion was sufficient to cause a collapse. Because of this fact, it may be several days before prostrations and deaths will show a decrease or cease in keeping with the lower temperature. All the parks in the city and piers along the river front were again thrown open last night and thousands took advantage of the opportunity to get a good night's rest in the cool and refreshing breeze.

Revolts in Russia.

St. Petersburg, July 20.—Advices received today tell of a revolt on the part of 100 prisoners confined in the prison at Dunagurg in the province of Vitebsk, in an endeavor to assist three political prisoners, who had recently been brought to the prison, to escape. The prisoners organized the revolt carefully. They smashed the doors of their cells and tore apart the iron beds in the prison to secure iron bars as weapons. They then charged upon the prison guards with these bars and with the stools in their cells in an endeavor to break jail. The guards summoned a company of soldiers to put down the rebellion. Several volleys were fired into the mass of prisoners by the soldiers who thus restored order. Two men were killed and sixteen were injured during the shooting.

Excitement in Madrid.

Madrid, July 20.—A municipal uprising similar in some ways to that which occurred at Philadelphia, recently, on the subject of the gas lease is reported from Salamanca. The town councillors decided upon letting a local franchise without providing that the city should be properly remunerated for the privileges, which it was proposed to give away. The people objected to the franchise being let upon the terms proposed, but the councillors paid no heed to their protest and prepared to carry out the deal. Yesterday the people decided to take the matter into their own hands, and to forcibly prevent the ratification of the franchise. Accordingly they stormed the town hall, while the council was in session, and drove the councillors into the street. The ringleader of the men who proposed to give away the franchise was caught and lynched.

Big Deficit Still Rolls Up.

Washington, D. C., July 20.—In the nineteen days of the new fiscal year the government has been paying out with both hands and taking in with one, as it were, so that a deficit has already been rolled up more than half as large as the entire deficit for the fiscal year which closed on June 30.

The Treasury statement yesterday showed an excess of expenditures over receipts for the nineteen days of the new fiscal year of $14,813,384.80, the total receipts having been $27,986,615.20 and the total expenditures $42,800,000. This was expected for the reason that in trying to keep the deficit for the last fiscal year down to the lowest point possible, all payments that could be withheld in the closing months of that year were thrown over to the new fiscal year. The first 19 days of last July found a deficit of $18,636,000.

Beef Trust Drives Stock Yard to Ruin.

Philadelphia, July 20.—Unable to compete with the beef trust, the North Philadelphia Butchers and Drivers' Live Stock Yard Association has sold its forty-three-acre property at Rising Sun lane and the North Penn Railroad, and will dissolve at a meeting to be held by the stockholders of the association on August 9. The property was sold for $132,500. The association has been in existence since 1876. It was formed to compete with the West Philadelphia stock yards, and for fifteen years was a profitable venture. From the time the trust invaded this market fifteen years ago, the association has been conducting the yards at a loss, which increased each year. A four-story hotel was one of the improvements made on the property. Over one hundred and twenty-five persons are interested in the association.

Boy Charged With Murder.

Pittsburg, Pa., July 20.—Boles Esekvich, a McKees Rocks youth, was brought to the county jail this morning charged with murder. Detective Reed made the arrest. It is believed that the young man knows much of the death of Martin Macus, the Slavish laborer whose head was cut off in the Pittsburg & Lake Erie Railroad yards at Bell avenue, McKees Rocks, at an early hour this morning. The two were drinking together last night. The finding of the decapitated body of Macus, was reported to the morgue about two o'clock this morning.

The Chinese Boycott.

Washington, July 20.—The State Department has received from U. S. Consul Gracie, at Shanghai, China, a copy of the pamphlet being spread throughout eastern China by the Shanghai guilds engineering the boycott of American goods. The document is a report of the meeting on May 16 of the Kuan Tung and Fukien guilds, which are now spreading the anti-American propaganda.

After dealing with the exclusion act, and the attitude of the American government and the Chinese Minister in Washington on the new treaty, the co-operation of all Chinese merchants is requested in refusing to handle American goods. Various speakers who addressed the meeting, which consisted of 200 merchants, are reported, each submitting additional measures to those offered in the formal resolutions which were adopted. Means of coercing "wicked tradesmen" who would still persist in handling American wares, were suggested in plenty. It was advised that other merchants refuse to make acquaintance with the "wickeds" or permit their children to marry the children of such tradesmen. Chinaman who had visited America are quoted as having told the May 16 meeting at Shanghai that the conditions of Chinese in the United States was "dreadful."

A Just Verdict.

New York, July 20.—The jury which tried Edward Neidinger accused of mistreating little girls who were members of his "flower class," and "botany class," brought in a verdict of guilty against the man this afternoon, after being out just seven minutes. Neidinger was remanded until Monday, when he will be sentenced. Neidinger was convicted of criminal assault in the first degree, and the maximum punishment for the crime is twenty years' imprisonment.

On the stand he denied the charge, but admitted that he had seduced his wife when she was 13 years of age and that she had left him some time on account of his filthy habits and cruel treatment of her.

He also testified that he has been sent to the workhouse on the complaint of his wife for assault and desertion.

Sensational Development.

New York, July 20.—A sensational development in the Equitable Society scandal came out today, when State Bank Examiner Judson, after making an examination of the books of the Mercantile Trust Company, said there was no record on the books of the Trust Company of a loan of $655,000 made to the Equitable Life as set forth in the Hendricks report. Judson said he was near enough through the books to have discovered such a loan had it existed. The statement of Mr. Judson refutes the statemeut of President Deming, of the Mercantile Trust Company, who stated that such a loan did exist.

A Prearranged Comedy.

St. Petersburg, July 20.—The reported attempt to assassinate Constantine Pobiedonostzeff, Chief Procurator of the Holy Synod, yesterday at the railway station at Tsarskoe-Selo, is now regarded as a prearranged bit of comedy. The circumstances surrounding the reports are exceedingly unusual. The would-be assassin stood calmly on the platform holding a revolver in his hand when the procurator left the car in which he had been riding. When a bystander, who saw the man flourish the revolver, seized the fellow, he made no resistance and surrendered quietly.

Mutineers Kidnapped.

Vienna, July 20.—The correspondent of the Neiue Frie Presse at Galatz, Roumania, wires that fifteen of the former mutineers on the Russian battleship Kniaz Potemkin have been kidnapped by Russian police agents, and hurried across the frontier line to Russia. The men were working at the Goetz factory, in Galatz, having gone to that city after the surrender of the battleship to the Roumanian authorities at Kustenji. The men were made drunk by the Russian police agents, and were conveyed over the frontier while in that condition.

Want Censorship Restored.

St. Petersburg, July 20.—General Trepoff, Assistant Minister of the Interior, is endeavoring to persuade the Czar to restore the censorship on news telegrams sent out from Russia. He has told the Emperor that the unfavorable impression of Russia, which has been formed by the world, is due to the news dispatches which have been sent by correspondents to foreign papers, and he argues that this would not have happened if a rigorous censorship had been maintained during the entire progress of the war.

May Reopen Refinery.

Philadelphia, July 20.—As the result of a big importation of sugar now on its way to Philadelphia from Java and the Hawaiian Islands, it is probable that the Franklin Sugar Refinery will resume operations soon. This refinery, which is at Bainbridge street and the Delaware river, has been inactive for the last ten years. When running it employs 2,000 men. The sugar—more than 200,000 tons of it—is coming on a fleet of British tramp steamships and American sailing vessels.

Weather Probabilities.

For this section partly cloudy tonight and Friday; moderate temperature; light westerly winds.

Refreshing Rains.

The torrid weather of yesterday was followed about four o'clock in the afternoon by cloudiness and later by a high wind which rolled up clouds of dust and at times rendered it impossible to distinguish objects half a square away. The flaws at times were very heavy and caused some apprehension when large limbs from a number of trees in different parts of the city were twisted off. While the wind was at its height the tin roof of a house on the west side of Royal street, near Cameron, was torn off. Rain soon began to fall thick and fast and continued for some time. There was the usual accompaniment of thunder and lightning incident to mid-summer rains. The wind and rain caused a marked drop in the temperature, and conditions last night for sleep were greatly improved. The temperature today has been moderate.

The mercury which at 3 o'clock yesterday evening registered 94° dropped to 90° by 4:30 and in the next half hour during the shower it fell to 73°, making a drop of 21° in less than two hours. At 8 o'clock this morning the mercury had gotten up to 80 again; at noon it stood at 83° and at 3 o'clock this evening it registered 88.

Baseball.

The regular weekly meeting of the Alexandria Baseball League was held at the Tontine Hotel last night and considerable business was transacted. The Del Ray team protested Monday's game with the Old Dominion claiming the Del Ray catcher was blocked by one of the Old Dominion's players. Del Ray was upheld in their protest and the game was thrown out. The players in future game will be required to be seated on benches provided for them. Ropes will be stretched before every game and no player from either side will be allowed to question a decision. The management of the league is determined to have good behavior from the teams while playing ball and better behavior is assured in the future.

The game tomorrow will be between the Orientals and the Invincibles. The batteries will be: Orientals, Zinkle and Frye, of Washington; Invincibles, Martin and Johnson. The game will be called at 5:30 o'clock.

After a Ferry Boat.

Mr. John Callahan, manager of the Norfolk and Washington Steamboat Company, has gone to New York again to close a deal for the purchase of a double-end ferry boat for temporary service on the route between this city and Washington while the new ferry steamers are building. The boat Mr. Callahan proposes to purchase is 195 feet long and 60 feet wide, and has a speed of about thirteen miles an hour. Should the steamer be purchased, she will be here within two weeks and will be on the route about the first week in August. The steamer, it is understood, is a single-deck vessel, with big cabins on each side for passengers and room for twenty-four teams on her deck. It is the purpose of the Norfolk and Washington Company to remodel the steamer and hold her for a reserve boat when the new steamers are in service.

Sent to Jail for Six Months.

Mary Pritchard, colored, yesterday went to police headquarters and told acting Lieutenant Roberts that she had reason to believe that Josephine Lee had robbed Oliver Brooks of $48. The woman produced $15 which she said the Lee woman had given her to keep for her. It seems that Brooks, who is employed by one of the railroad companies, met Josephine Lee and accompanied her to her house where the couple were to drink beer. While there Brooks fell asleep and it was supposed that the woman robbed the man while he was in a dismembered condition. A warrant was issued and Officer Nicholson soon had the woman in custody. She was brought into the Police Court this morning and after Justice Caton had heard all the evidence he sent the accused to jail for six months.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Josephine Lee, colored, arrested by Officer Nicholson charged with stealing $48 from Oliver Brooks, was sent to jail for six months.

William Bruck and Maggie Allen, both colored, arrested by Officers Allen, Beach and Arrington charged with disorderly conduct, were fined $5 each.

Martha Woodland, colored, arrested by Officer Arrington charged with being drunk in the street, had her case continued.

Rosie Moore, charged with selling liquor on Sunday and without a license, was fined $50.

Deaths.

Mrs. Mary Jane Davis, wife of Mr. L. M. Davis, died at her home in this city this morning. The deceased had been in ill health for some time. She was a daughter of the late John T. Thompson.

John Jacob, the ten-year-old son of Mr. Jacob Brill, died at his parents' residence, on Duke street, between Fairfax and Lee, at 7 o'clock this morning—the same hour at which he was born. He had languished for a long time, and had suffered from a complication of diseases.

Accident to a Brakeman.

Mr. Walker Campbell, a brakeman in the Southern Railway yard in this city, was seriously injured last night by falling or being knocked from the top of a freight car. No one seems to have witnessed the accident, and Mr. Campbell was injured so seriously that when picked up he was unable to tell how it occurred. He was taken to his home where he was attended by the company's surgeon.

There was an alarm of fire late yesterday evening caused by the discovery of a slight fire in a stable in Fayette alley. The apparatus repaired to the scene and the flames were subdued before any serious damage resulted.

Personal.

Among the late arrivals at the summit of Mount Washington, N. H., are Miss Boush and Miss Carlin, of Alexandria.

Miss Cora L. Wheatley is visiting friends in Philadelphia.

Master Wilton Arrington is suffering with typhoid fever at his home on Queen street.

Mr. M. B. Harlow, who has been seriously ill for the past month from the effects of a dose of oxalic acid which he took by mistake, has so far recovered as to be able to be at his office today. He is receiving the congratulations of his many friends upon his recovery.

Mr. J. R. Caton has gone to Louisa on legal business.

Mr. James Alston Cabell, candidate for Lieutenant Governor, was in this city last night, a guest at the Hotel Rammel.

Mrs. R. Y. Johnston, of Charleston, West Va., accompanied by her niece, Miss Maggie Tabb, is visiting her brother, Dr. W. F. Fisher, at 110 south Columbus street.

Mr. Edgar Pinkard, of Falls Church, and Miss Emma Randall, of this city, were united in marriage by Dr. Fisher, at the parsonage, yesterday afternoon.

Capt S. B. Hutchins and wife, with their daughter, Miss Lucile, of Portsmouth, Va., who were the guests of Dr. Fisher, have gone to New York.

Dr. E. D. Fisher, of Dendron, Va., who has been visiting his brother, Dr. W. F. Fisher, has left for his home.

Mr. Ernest Tsego and Miss Marguerite Hagganbotham, of Baltimore Md., were married at the Baptist parsonage Monday evening.

New Steamer.

It was announced yesterday in Newport News that the Norfolk and Washington Steamboat Company has awarded a contract to the Newport News Shipbuilding and Drydock Company for the construction of a new steel side-wheel river day passenger steamer. The vessel will be 265 feet long and will be fitted up as a first-class passenger steamer, and will be built with a view of being fireproof. The vessel must be completed in 10 months and must, on her trial, develop a speed of 18 miles an hour. When completed, the vessel will ply between Washington, Alexandria and the lower river.

Fined Fifty Dollars.

Rosie Moore, a resident of north Lee street, was before Justice Caton in the Police Court this morning charged with selling liquor on Sunday and without a license. She was fined $50. The woman was arrested last Sunday with several others who were charged with similar offenses. Her case had been postponed until today. She noted an appeal and gave bond for her appearance.

After Half Holiday.

At a meeting of Columbia Lodge, No. 174, of the International Association of Machinists, last night, at Naval Lodge Hall, in Washington, the matter of the half holiday at the Washington navy yard was taken up, and it was decided to again confer with Secretary Bonaparte, of the Navy Department, and see if there is a possibility of the privilege being granted.

A Correction.

A paragraph in yesterday's Police Court proceedings stated that Alfred Lane, colored, had been fined $100 for the unlawful sale of cocaine. This was a mistake. It was Llewellyn Lane, as was announced in another item in the local department. Alfred Lane is a well-known colored resident and is not a patron of the Police Court.

Struck by Engine.

An unknown colored man, about thirty-five years old, while walking across the Long bridge yesterday morning was struck by engine No. 34 of the Richmond, Fredericksburg and Potomac Railroad, and hurled into the Potomac river, where he drowned. The body was recovered later.

Sale of Lumber Business.

A sale of the real estate and lumber business of Smoot & Co. was this day made to W. A. Smoot, jr., to take effect on August 1, 1905. The sale was negotiated by Mr. William Wimsatt, of Washington, D. C., and Mr. John M. Johnson, of this city. There were other bidders.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five minutes I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy it for sale by Gibson and Timberman and W. F. Creighton & Co.

Mr. Caton's Candidacy.

Alexandria, Va., July 19, 1905.

To my fellow citizens of Alexandria city and county:

I beg to announce that I will be a candidate for the House of Delegates for the city and county of Alexandria subject to nomination by the democratic primary. It is well known to my fellow citizens that I was an aspirant for the honor of lieutenant-governor of Virginia, and that for reasons already made known to the public I felt constrained to retire from that contest. When I did so I then had no intention of becoming a candidate for renomination and reelection to the House of Delegates, until urged upon me by a large number of my fellow citizens of the city and county of Alexandria, whose wishes and friendship I felt under obligations to regard. After mature consideration and yielding to what I believe to be the wish of a large body of my fellow citizens and friends representing every interest in the community, I have concluded to stand for renomination and re-election. I have been twice honored with the election by my people as their representative in the General Assembly of Virginia, and trust that my past record in that body will be to them a pledge and assurance of my future conduct should it be their pleasure to return me to this post of honor. In the event of my nomination and election I pledge myself faithfully to guard and defend every interest of the city and county in which I have spent my life and in which are centered all my affections and interests. I respectfully solicit the endorsement and support of the people whom I have represented to the best of my ability in the two last General Assemblies of Virginia.

Very respectfully,
JAS. R. CATON.

Town Topics.

New York, July 20.—Assistant District Attorney Krotel resumed his inspection today of the books of Town Topics Publishing Company and was permitted by counsel for the company to examine the account held with the company by Justice Duell.

It is stated that Senator Depew, Clarence Mackay and John Jacob Astor subscribed for the yet unpublished book, Fads and Fancies, and Mr. Krotel was eager to know why it was that these subscribers paid a thousand dollars more than the subscription price, which Moses Wooster, managing editor of the Society Editors' Association, said was $1,500.

The Bobolink Route.

The bobolinks are so open in their movements that the passage from Florida to Cuba and thence to South America is known as the "bobolink route." So energetic and brave is this plump little traveler in feathers that it often compasses in a single long ocean flight the 700 miles from Cuba to South America, while many other species which also use the "bobolink route" stop at Jamaica, apparently dreading the long, sustained trip across the Caribbean sea.—Youth's Companion.

Precocious.

Small boys have a way of listening to remarks that older persons make and using them when least expected. A mother was surprised the other day to have her young son reply to her when she was reproving him for some trifling misconduct: "Well, mamma, you must put up with me. You know I'm just at the trying age."

A Mean Retort.

Wife—According to this paper, hot water will prevent wrinkles. Husband—So? Then how do you account for the numerous wrinkles I have? Wife—How do I account for them? Husband—Yes; you keep me in hot water nearly all the time, you know.

Breaking It Gently.

A young man married against the will of his parents, and in telling a friend how to break the news to them he said, "Tell them first that I am dead and then gently work up to the climax."

Woolgathering.

"When a person's 'woolgathering' that means he's lazy, doesn't it, pa?"

"Not necessarily, my son. He may be gathering the wool off the lambs on the Stock Exchange."

The Old Stone Fort at Chambly.

One of the most picturesque remains of the glories of New France, whose history and legends date back to the age of Frontenac and La Salle, is the old stone fort at Chambly, in the province of Quebec. The tablet on the ruins, with its motto, "Courage and Loyalty," in French, bears this inscription: "In the reign of Louis XIV. of France and Navarre, the Marquise de Vandreuil being governor of New France, this fort was erected in 1711, burned in 1776, restored by Guy Carleton in 1777, abandoned in 1847. It was repaired in 1882 in the reign of Victoria, queen of Great Britain, the Marquis of Lorne being governor general of Canada," etc. A fact which the inscription kindly fails to record is that the burning referred to was by the American troops, who, having captured the fort in 1775 under General Montgomery, burned it the following year when they retreated to Lake Champlain. The various restorations have been made skillfully to harmonize with the weather beaten portions which resisted the fire of 1776.

The Policeman and His Uniform.

Why is it that a policeman of medium build can handle frequently two and sometimes three men his size in a fight? An officer on the local force was discussing the question. "I'll tell you why it is," he said. "It is simply because the policeman is in uniform. The uniform denotes authority, and that takes the nerve out of his opponents to a certain extent. They know that they are breaking the law by resisting him, while he might even kill them and not commit a crime. All through a fight with a policeman the other fellow or fellows are thinking of escape. The officer isn't. He's thinking of subduing and arresting the man or men. He puts his whole effort and strength into it, while his opponents generally fight in a half hearted way. Put a policeman in citizen's clothes, with his star under his coat, and he wouldn't be able to whip two men his size any more than you would unless the two men knew he was an officer of the law."—Kansas City Times.

Spider Courtship.

The courtship of the Saltis pulex, a spider, is described by an expert in insect life as a most elaborate exhibition of skill and grace in dancing. Balancing his body on his long legs, he moves in a semicircle for about two inches and then, reversing the position, twists and turns in the opposite direction, repeating this grotesque figure scores of times and pausing every few minutes to rock from side to side and to bend his brilliant legs so that they may be brought into full view of his admiring mate. A similar display, but with varied antics, marks the lovemaking of other sorts of spiders, but this manner of courting is not without its risks, and it may often happen that the lively suitor, if he prolongs his performance or shows off his points of perfection too persistently, is suddenly seized and devoured by his more muscular mate.

A Just Rebuke.

A young bride was invited to a bridge whist luncheon and, after spending a delightful afternoon, was told by her hostess that she was in debt $75.

Mrs. ——, unaware that she had been playing for money, was horrified at the idea of having to ask her husband for the necessary amount.

She mournfully confided her woes to him, and he immediately wrote a check for $76.50 and sent it to the hostess.

The hostess, believing that a mistake had been made, informed him that he had sent $1.50 too much.

Mr. ——, however, returned it with the curt statement that the $75 settled the bridge score and the balance was for his wife's luncheon.—New York Times.

One Dollar Saved Represents Ten Dollars Earned.
The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Gibson & Timberman and W. F. Creighton & Co.

Indigestion Cured.
There is no case of indigestion, Dyspepsia or Stomach Trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. Kodol Dyspepsia Cure affords quick and permanent relief from Indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. Sold by W. F. Creighton. 401 King street, and corner Queen and Patrick streets.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley, N. D., says: "Two bottles of these Famous Little Pills cured me of chronic constipation.' Good for either children or adults. Sold by W. F. Creighton, 401 King street, and corner of Queen and Patrick streets.
